Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

* The primary reasons for allowance for claims 1-13 are the inclusion of a liquid ejection head comprising at least two of first liquid ejection units that are aligned so that the respective nozzle arrays are aligned in a first direction, and each of which has a first length in the first direction, a second liquid ejection unit having a second length in the first direction shorter than the first length, the second liquid ejection unit is arranged at a discontinuous portion of the nozzle arrays between two adjacent ones of the first liquid ejection units in a state of being shifted from an alignment of the first liquid ejection units in a second direction, whereby a single unit of the liquid ejection units is constituted by the first liquid ejection units and at least one of the second liquid ejection unit such that the respective nozzle arrays constitutes a single nozzle group for ejecting the same kind of ink. It is these limitations, alone or combined as claimed, that have not been taught, found, or suggested by prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
